

WHO WE ARE

- Link4Solution is a platform on a digital mode run by a group of professionals to provide end-to-end accounting solutions to Small and medium Business Enterprises across the globe for maintaining books of accounts. We provide reliable and professional virtual accounting, tax preparation services and CFO services through experienced accountants.
- The platform is managed by accounting professionals having high-end education and experience of over 40 years in accounting services.
- Our market credibility of 40 years together with secured server environment justify the secrecy and security of information shared with us.

WHY YOU NEED

- Every small and medium enterprise hardly find the time and resources to engage the full time accounting team to prepare the books of accounts. As your business activity expands, the scope and volume of transactions are likely to increase as well for analyzing and reporting the results.
- Conventionally, business enterprise maintain an accounting staff on site to handle various book-keeping and accounting requirements. However, employing and retaining in-house team to cater the accounting needs may be an immensely costly affair.
- For any business enterprise, maintenance of books of accounts on regular basis is of a primary requirement to determine the efficiency and effectiveness of the business.

HOW WE DO

- We select the accountant depending upon evaluation of many factors including nature of business, previous working experience and trust.
- Scanned copies of vouchers uploaded on the platform/shared by email/whats app through computer or mobile phone under secured environment
- We provides online facility on 24x7 basis to access the books of accounts or seek the desired reports on computer or on mobile within agreed time frame.
- Our team of virtual book-keepers and accountants efficiently work using the most popular accounting software applications available in the market like tally or Marg which boost the ease usage of the financial records maintained by us.
- We provide a special direct cost advantage of economical pricing structure in virtual accounting that reduce your overheads cost atleast by 40%.
- In our SOP's three layer checking is placed to ensure the error free results to our clients.
